## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 21 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Hubbard et al. (US Patent No. 5,935,357).

Hubbard discloses a roof membrane welding apparatus and a method of using the same. The apparatus of Hubbard includes a frame (22) with wheels (23, 24) attached thereto, a support member (70) attached to the frame, a nozzle (40) mounted on the frame (22), and weld wheels (62, 64) mounted on the support member (70). The weld wheels are position adjacent to the nozzle (40). (Figure 1.) The weld wheels are laterally adjustable. (Col. 8, lines 1-19.)

### ***Allowable Subject Matter***

3. Claims 1-20 are allowed.
4. The following is an examiner's statement of reasons for allowance: The structure of the welding device set forth in the method and apparatus claims 1-20 require a frame and a support member connected to the frame, where the support member also has a nozzle and weld wheels attached thereto. The support is movable relative to the frame. Prior art teaches having weld wheels being movable and a nozzle which is movable, but there is no

Art Unit: 1734

reason or suggestion for having a nozzle and weld wheels attached to the same movable support member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
